Trolley Ropes Are Cut, Motormen and Conductors Heckled and In Some Cases Attacked.

(By Associated Press.)
KNOXVILLE, TENN., Oct. 26.—After a day marked by frequent clashes growing out of a resumption of street car service, with nonunion crews, two battalions of the Fourth Tennessee Infantry tonight were ordered to mobilize in the event the situation gets beyond the control of local authorities. Governor Roberts, at Nashville, also is prepared to call for the use of United States cavalry at Fort Oglethorpe, Ga., if this becomes necessary.

One infantry company and the machine-gun company of the State guard, which are located in Knoxville, are sleeping on their arms in the local armory tonight. Before daylight they will be ordered to move to various points in the city. The nonunion crews, who are being employed by several infantry companies from near-by towns, are being guarded by the State guard. Adjutant-General E. B. Sweeney, with several aids, is in the city in personal touch with the situation.

Four men in fighting. Four strike breakers were injured tonight in fighting with nonunion crews. Two citizens were injured in traffic accidents due to the strike.

There are only fifty uniformed men in the Knoxville police force and this number was insufficient to handle dis- orderly crowds today, regardless of the fact that the police department has been called upon to handle the situation in all cases. Many deputy sheriffs were sworn in, and United States marshals were called in to assist in maintaining order. The situation today was considered the more menacing because of the fact that the police department has been called upon to handle the situation in all cases.

Friends of Mayor E. W. Neal took steps tonight to provide him with a personal bodyguard, owing to threats which are said to have been made against him because of his activities today.

Such an attempt to single out rail- road employees and deprive them of what he termed the economic right of workers to strike to prevent injustice, must be accepted, he said, in connec- tion with other information which the railroad brotherhoods have, as a fore- gone conclusion, that the railroads contemplate a general reduction in wages when the government surren- ders control and desire such a measure to forestall a strike.
